TSP100ECO *futurePRNT* Printer *The World's First ECO Dedicated POS Printer*

The TSP100ECO, the world's first ECO POS printer, further extends the legacy that is the TSP100 *futurePRNT*. The TSP100ECO supports Star's commitment to being ecologically responsible, while allowing Star to continue to provide a high-speed, software enriched, economical choice for users.

The TSP100ECO brings an array of environmental benefits including:

- 75% Reduction in power consumption
- 5% to 40% reduction of paper consumption
- New Halogen-Free printer housing
- New recyclable packaging
- 5 years CO₂ emissions free (Carbon Offset)

TSP100ECO is equipped with advanced power saving features which allow for less energy consumption and have earned the ENERGY STAR® Qualification. These features include a new rest mode option which enables the printer to use less power when not actively being used.

Paper saving functions come in a multitude of ways including the ***automatic reduced top paper margin*** of 3mm as well as ***vertical and horizontal receipt compression*** through *futurePRNT*. The TSP100ECO's Operator Prompt brings a ***"Print on Demand"*** option. It enables users to either Print or Cancel the Print Job depending on whether the customer prefers a printed receipt or not and allows the receipt to be reviewed or reprinted at a later time. The TSP100ECO's monitoring tools allow users to examine both paper and energy savings.

Developed with state of the art power and paper management programs, the TSP100ECO is designed to minimize the environmental impact of point of sale printing.

Please visit <http://www.starmicronics.com/Marketing/Printers/MediaKits.aspx> to download product photos and collateral.

The TSP100ECO comes with a 3-year full warranty (Extend-A-Star service program) and the first year features free Swap-A-Star service program in the United States and Canada.

Model and Options Numbers listed on Page 2.
