**TSP100** LAN  
futurePRINT

### TSP100LAN Thermal Printer Product Announcement

The TSP100LAN brings all the attributes of the TSP100 including all parts and software being included in one box coupled with Ethernet Connectivity!

**Now you can easily connect the TSP100 to your network.**

#### A First in POS Printers

The TSP100LAN printer includes an "Error Reporting Feature" which indicates if there has been a lost network connection by flashing its "error" lights. The "ready" button not only tells the user that the printer is on, but also if it has paper and if it is operating correctly. It will also now tell the user if it has a "real" connection to the host computer.

The TSP100LAN also features "Real Time Status" alerts for the cover being open or paper being out. Now, due to the TSP100LANs connectivity, any PC on the network will be able to see the status of the printer.

An internal power supply, Ethernet interface, power cables, complete mounting kit, and a paper roll are included "in the box."

Also included is a full set of software utilities. Redesign receipts without modifying applications. Add logos. Add coupons. Preview receipts and enhance bar codes. Included operating system drivers allow for 'Plug & Play' automatic installation. The TSP100LAN also comes with one year "Swap-A-Star" included, Star's extended warranty program.

Star Part Number	Model Number	Description
39463610	TSP113L US	Thermal, Friction, 2 Color, Tear Bar, Ethernet Interface, Putty, Internal PS
39463010	TSP113L Gray US	Thermal, Friction, 2 Color, Tear Bar, Ethernet Interface, Gray Internal PS
